

CONSTRUCTION UPDATE

During an informational open house on Wednesday, April 9, 2025, at Midway Lanes, individuals had the opportunity to learn about project history, construction phasing, and special assessments. The Mandan Progress Organization also shared information about their proposed digital gift card program, designed for use along the Memorial Highway corridor at participating local businesses.

Construction is underway. Work began in early April, and as construction progresses this spring, traffic is being shifted in phases to allow for underground construction and paving in both directions. Drivers will notice temporary lanes in place and traffic moving on both existing and newly built temporary roadways.

Throughout the project, one lane in each direction and a center turn lane will remain open to help keep vehicles moving. Please be aware that lane directions and locations will shift as crews continue to work on different sections of the roadway.

Please slow down in the work zone, pay attention to signage and crews, and continue supporting local businesses along “The Strip.”

UPCOMING WORK

Construction began with excavation for the storm water outlet infrastructure south of Memorial Highway. This includes the 19th Street closure and will be followed by the 21st Street closure and lift station construction at 40th Avenue. Construction activities on mainline Memorial Highway include removal of existing surfacing, roadway grading activities and construction of temporary surfacing.

Information regarding street closures and proposed detour routes will be available on the City of Mandan’s project website. Visit <https://www.cityofmandan.com/mhp> or scan the QR code below.
