

## CONSTRUCTION UPDATE

Milling and removal operations are in progress along Memorial Highway as construction continues. Drivers are urged to stay alert and exercise extra caution when passing through the construction zone due to the increased truck traffic and flaggers in the area.

- On 40th Avenue SE, traffic has shifted to a temporary roadway.
- 19th Street SE reopened in May with the completion of utility and storm sewer improvements.
- 21st Street SE is currently closed for the installation of an underground storm water trunk line. The roadway should open up late-June, pending any delays. A signed detour will be in place or you may choose an alternate route. Please make plans in advance.

### *Detour for 21st Street SE Street Roadway Closure*

Construction has begun on a lift station at 40th Avenue SE, designed to pump wastewater from lower to higher elevations while reducing excavation expenses typically related to installing sewer pipes. As part of this work, 40th Avenue SE will be shifting back to its original alignment, and Memorial Highway traffic will be shifting to the recently constructed temporary roadway surface.

Throughout the project, one lane in each direction and a center turn lane will remain open to help keep vehicles moving. The speed will be lowered to 25 mph and there will be an 11-foot width restriction.

Please be aware that lane directions and locations will shift as crews continue to work on different sections of the roadway.

Please slow down in the work zone, pay attention to signage and crews, and continue supporting local businesses along “The Strip.” The Mandan Progress Organization is also creating a digital gift card program, designed for use along the Memorial Highway corridor at participating local businesses. ## UPCOMING WORK

Ongoing construction activities on mainline Memorial Highway include removal of existing surfacing, roadway grading activities and construction of temporary surfacing.

Information regarding street closures and proposed detour routes will be available on the City of Mandan’s project website. Visit <https://www.cityofmandan.com/mhp> or scan the QR code below.
